**CABUL** 1970s

**ANTES DO TALEBAN**

1972, no médio-oriental Journal de l'Est. O que  
Marianne passou liberdade e amor, e não apenas  
muitas vezes, apesar de alguns castigos de morte  
que afetam os cidadãos comuns e outros  
intelectuais, de modo particularmente  
que fazemos um país. Não há um único destino  
segundo os seus interesses.

# Africa Regional Data Cube

A data cube provides analytically ready data across decades allowing for easily accessible geospatial analysis on key environmental issues. The initial focus for the data cube will be on algorithms to address priorities identified by GPSDD partners across **5 countries**:

**Ghana | Kenya | Senegal | Sierra Leone | Tanzania**

The Open Data Cube (ODC) initiative seeks to increase the value and impact of global Earth observation satellite data by providing an open and freely accessible exploitation architecture and to foster a community to develop, sustain, and grow the technology and the breadth and depth of its applications for societal benefit.
